Subject: ICTF Modernization/Expansion Project

February 24, 2009

Mister Sam A. Joubiat
Executive Director
ICTF Joint Powers Authority
P.O. Box 570
Long Beach, Ca 90801

Subject: ICTF Modernization/Expansion Project.

Dear Sir:

After review of the Preparation and Initial Study of the ICTF modernization and expansion and attending two communities meeting at Stephen Junior High School, we would like to offer some of our concerns and the areas that need additional study.

1. Air Quality both on and off site. More in-depth studies on today air quality levels.
2. Truck traffic circulation routes and quality of truck trips to and from the site.
3. The handling and storage of Hazards and Hazardous Materials both on site and off site.
4. Noise both on site and off site.
5. Hours of operation when the expansion project is complete?
6. The name of responsible parson to be contacted when there are problem on and off site.
7. Utilities and service systems. What will the impacts to the community with the increase in services?

We hope the above concerns will be investigated and responded to in the EIR.

Thank you

Raymond L. Park
